Súmate a otros jugadores hablando sobre juegos. Visita Foro Y8 Papa's Burgeria To Go is redesigned and reimaged for smaller screens, so your fingers won't get in the way of the action!CONTROL WITH YOUR THUMBS - You'll switch stations using buttons in the corners of the screen, perfect for your thumbs. Use buttons in the top corners to switch Order Tickets without having to drag them back and forth. You can also view all of your Order Tickets in a zoomed-in mode for easy reading.GRILL STATION - We've made keeping track of your burgers easier than ever, with Timers stuck in each burger patty that you can read at a glance, showing the cooking time and how each side is cooked. You can also buy Alarms in the Shop to add onto each Timer, so you'll get an alert when it's time to flip or remove a burger. With multi-touch support, you can quickly flip and remove burgers by using multiple fingers. Try a triple-tap to flip three patties in a row!BUILD STATION - With a traditional drag-and-drop system, your finger would block your view, so we've completely changed the Build Station to work on smaller screens. You'll swipe a carousel of Topping Bins across the top of the screen, and slide it carefully to line up toppings with the burger below. Simply tap on the bottom of the screen to drop a topping from the bin above! You can also tap a button to swap your Topping Bins with Burger Bins, which hold all of the patties you've cooked on the grill. And with full multi-touch support, you can keep one finger sliding the bins and another tapping on the bottom of the screen, so stacking burgers is a breeze!
