Best Android Games (Image credit: Android Central) Page 1 of 12: There are hundreds of thousands of apps on the Google Play Store, and many are games. In fact, games are so popular that it's the first tab you see when you open the app.If you're looking for the best games available on the Google Play Store, you've come to the right place. To make it easy to find, we've divided this list into eight categories: Use the jumplist to get to the genre you're looking for.Whether you're new to Android and need some fresh, new games to start building out your Google Play library or simply looking for the latest trendy games that are worthy of your time and attention, these are the best Android games you can find right now. Current page: The best Android games Next Page Action Page 2 Often defined by what they're not, action games can take many forms. Between rhythm, runners, arcade shooters, and heaven knows what else, the fun never has to stop with these action-packed games.Crash Bandicoot: On the Run! brings one of the most beloved faces of early console gaming to mobile. Less platformer and more endless runner, On the Run! is a perfect time-suck thanks to its quick levels and simple crafting loop. Play as Crash and Coco as they once again take on Dr. Neo Cortex's army of mutants.Run your way through levels using side-steps, slides, jumps, and spins to avoid obstacles and gain wumpa fruit and items needed for crafting. Collection runs are potentially endless and are your main opportunity to stockpile items you'll need to prepare nitro-infused bombs and serums that you'll need for Battle Runs. There are minions and bosses sprinkled throughout the game, and you'll continue to unlock new areas and enemies as you progress.The most annoying part of On the Run! is the bevy of microtransactions, but what else would you expect from the makers of Candy Crush Saga? The IAPs are easy enough to ignore, though, and you can make plenty of progress without ever spending a dime. As an added help, you can choose to watch an ad after a run and double your rewards. This is limited per day, though, so use your ad wisely.Implosion: Never Lose HopeDeveloped by the team behind Cytus II and Deemo, there are some high expectations attached to Implosion: Never Lose Hope, and I'm delighted to report that this game delivers. Intuitive touchscreen controls and a great UI make this native mobile title a joy to play on its home turf. A virtual joystick controls your movement, and virtual buttons control your combat actions in a system that is easy to understand, but that offers a fascinating amount of variety. Some hack-n-slash games can be totally brain-dead, but you'll have more fun with this title if you're willing to fine-tune your loadout and put a little more finesse into your strategies beyond simple button-mashing.The story is typical sci-fi fare and nothing amazing, but the good graphics, fun gameplay, and fully voice-acted cast make this a ride well-worth taking. The first few levels are free to play as a demo, and after that, the full game can be unlocked for a scant \$1.99. That's a serious steal for a game as high quality as this. If high octane action is what you're looking for, then your search ends with Implosion: Never Lose Hope.My Friend Pedro: Ripe for RevengeMy Friend Pedro: Ripe for Revenge is a new mobile installment in the My Friend Pedro series. After the success of the original My Friend Pedro on PC and consoles a few years ago, it's a delight to see the devs bringing their particular brand of frantic action to Android.You play as an unnamed, masked man armed with a couple of guns and some serious parkour skills. For reasons unknown, you're helping a floating, talking banana recover his kidnapped family from a variety of gangs and ne'er-do-wells through sheer brute force. The control scheme in Ripe for Revenge is fascinating — rather than walk or run, your only movement options are jumps and a short horizontal dash. The goal here is to constantly be in motion to build momentum and get the drop on enemies before reacting.Flow and movement are big draws in this game, with its action described as a "gun ballet." You tap on enemies to shoot at them, but there's a bit of strategy built-in, thanks to the fact that enemies will fire at you on individual timers. Taking out the enemies about to act first is your top priority since you have only three health, no shields, and no way to regain life throughout levels.Ripe for Revenge feels pretty great to play and delivers on the entertainment factor, but it may be frustrating for some players. Environmental hazards can be tricky to maneuver, and the level of challenge is occasionally beyond the average player. That said, Ripe for Revenge is free-to-play, so you can try it before you buy. If you choose to purchase the full game for \$2.99, you unlock an extra mode and the ability to restart your progress at level checkpoints rather than going straight back to level 1 when you die.Ninja ChowdownIf Crash Bandicoot: On the Run! was too easy for you (and perhaps too heavily monetized), then Ninja Chowdown is an excellent alternative to try. In this potentially endless runner, you play as Donatsu — a humble donut shop worker, and ninja, trying to reclaim his Doughjo's precious Knownut from the clutches of jealous rivals. In 2D side-scrolling fashion, you guide Donatsu through food-themed levels by jumping, dodging, chucking kunai, and going Super Saiyan (in a manner of speaking) to defeat your foes and progress to the next level. It's a simple game, but challenging and very satisfying to play. Ninja Chowdown is free with ads and an optional, one-time in-app purchase to remove all ads. It's well worth the small price for such a well-crafted game. The year 2018 has proved that Mobile Phones are not to be taken lightly in the field of gaming.
